

M/B CatBat3

Trailer mounted survey boat suitable for nearshore hydrographic surveys

► The “CatBat3” is a purpose-built, trailer-mounted survey boat permanently equipped with advanced multibeam survey equipment.

The equipment is fitted in a moonpool and is suitable for high resolution hydrographic and bathymetric surveys.

The “CatBat3” is particularly suitable for nearshore, inshore, coastal and shallow water surveys and offers significant flexibility in terms of mobilisation and launch.

Technical specifications

Name:	CatBat3
Built:	2018
Flag:	Denmark
Call sign:	XPH3347
